MEMORANDUM: DD/I [REDACTED] 25X1A8a  
FROM: DD/P [REDACTED]  
SUBJECT: Recent Studies on International Communism

1. Attached for your information are three studies produced recently by the [REDACTED] 25X1A8a

2. The brief, titled Indications of Intensified Communist Party Clandestine Activities, points up the fact that no matter what the political fortunes of the Communist Party may be at any given time, its clandestine operations continue in full force.

3. The study on the Pathet Lao-Royal Laotian Government negotiations and the agreements of August 1956 was compiled from several short papers written for DD/P internal use, as an illustration of the techniques of international Communism in negotiations and advance toward control of a government. Since the time of writing, Royal Laotian Government resistance to a deal with the Communists has stiffened. Although the situation is still in flux, the danger of the Communists entering the army and government appears to have lessened.

25X1X4 4. The study on the World Federation of Teachers' Unions was written some time ago [REDACTED] It has been issued in its present form to provide background information on the organization, which is the teachers' trade department of the World Federation of Trade Unions. It is the international front organization through which Communist propaganda and tactics are coordinated in the field of education in the Free World.

5. Your comments on these studies would be welcomed, and any additional or corrective information as well.
